Subject: Re: QA review of a memo entitled "Review of Pteropod and aragonite saturation data from 2011 and 2013"

Thanks Cheryl

I would be happy to review this

Region 10 staff were provided with data on pteropod shell damage and carbonate chemistry data by NOAA and University of Washington staff.

Deliberative Process / Ex. 5

Region 10 staff would like to share the info I prepared with UW and NOAA folks, which means we need to clear it.

Would you be willing to conduct a QA review on this document? As a FYI, no EPA data are in this document and I have purposely not made any recommendations, I am providing the information to Region 10 and others for discussion purposes.

Attached is the document. R10 staff have scheduled a meeting with UW & NOAA folks on October 31, I would need this cleared before that date so we can share with them.

Thanks.

Cheryl
